## SYSTEM 7™ DOORS

PRODUCT DATA

**System 7 Doors** are contemporary interpretations of the traditional glazed door. Offering a wealth of design possibilities, System 7 doors are characterized by the precise detailing and rugged construction of all F+S doors. Stainless Steel and Fused Metal® door faces are enhanced by a rich palette of finishes. Four glazing configurations are standard and feature many of our VividGlass design options.

### CONFIGURATIONS

System 7 doors are available in four glazing configurations:

TYPE A - RECTANGULAR GLAZING	TYPE F - PORTHOLE GLAZING	TYPE O - HALF-ROUND GLAZING	TYPE R - OBROUND GLAZING
			

### FACING MATERIAL OPTIONS

### GLAZING OPTIONS

STAINLESS STEEL	FUSED METAL®	VIVIDGLASS
<ul style="list-style-type: none"><li>Door faces are available in stainless steel in a variety of finishes. ### DOOR SIZE OPTIONS

Stile & Rail doors are available in the twelve standard sizes shown below:

3'0" x 6'8"	3'0" x 7'0"	3'0" x 8'0"	3'0" x 9'0"	3'0" x 10'0"	3'6" x 7'0"
3'6" x 8'0"	3'6" x 9'0"	3'6" x 10'0"	4'0" x 8'0"	4'0" x 9'0"	4'0" x 10'0"

Dimensions shown above are nominal finished opening sizes. Custom door sizes are available by special order. Standard door thickness is 1-13/16". Custom door thickness may vary depending on door's proportions.

## SYSTEM 7™ DOORS

PRODUCT DATA

### DOOR CORE OPTIONS

CONSTRUCTION	WOOD CORE DOOR	STEEL CORE DOOR
Stainless Steel or Fused Metal sheets are laminated under pressure to both sides of wood or steel cores. Wood cores combine a particleboard center section with a solid wood perimeter. Steel cores combine a resin impregnated honeycomb paper or polystyrene center with a steel skin.		

### HARDWARE PREP OPTIONS

System 7 Doors can be factory-prepared to receive virtually any required hardware. Forms+Surfaces offers suggested prep or prep-and-supply hardware packages for both residential and commercial doors. Because hardware requirements can vary significantly depending on project-specific needs, the buying party is responsible for verifying conformity with any applicable codes, plans, specifications and functionality requirements. For a complete list of suggested hardware prep or prep-and-supply packages, please refer to the System 7 Doors Design Guide.

### EDGES AND ASTRAGALS

AVAILABLE OPTIONS	EXTRUDED ALUMINUM EDGE WITH RADIUS PROFILE SHOWN WITH WEATHERSTRIPPING	EXTRUDED ALUMINUM EDGES WITH BEVELED PROFILES SHOWN WITH SMOOTH TRIM STRIPS AND ASTRAGAL
<ul style="list-style-type: none"><li>System 7 Doors use an attractive anodized aluminum extruded edge detail on both the hinge and latch sides. Radius and beveled profiles are available to accommodate a wide range of door swing and hardware configurations. Edges can be specified in your choice of Clear or Black anodized finishes. A matching reversible trim strip that slides into the edge can be fitted with weather-stripping or can be reversed to present a smooth appearance for applications where weather-stripping is not required.</li><li>A half-round astragal in matching extruded aluminum is available as an option.</li></ul>
